

ZMATH 2005c.01005

Wu, Shao-bing

Mathematics quality oriented education should face exams boldly.

J. Math. Educ. (Tianjin) 13, No. 2, 65-66 (2004).

During the change of educational system, most of the teachers equated examination-oriented education with examination, while set quality education against it. Particularly mathematics education had to involve examination. But the correct examination conception urged exam to be in agreement with quality education both in its goals and in its context.
