

ZMATH 1994c.00877

Lamb, John F. Jr.

Two Egyptian Construction Tools.

Math. Teach. (Reston) 86, No. 2, 166-67 (1993).

Describes the geometric concepts involved in two construction tools used in ancient Egypt. A level is used to make a construction horizontal, and the plumb level is used to make a construction vertical. (ERIC)
