

**ZMATH 1993f.02881**

**Mackenzie, J.**

**How proofs began.**

Function 17, No. 1, 18-23 (1993).

Der Autor erörtert die von Plato ueberlieferte Unterhaltung zwischen Sokrates und Meno unter dem Blickwinkel des Beweisens und seiner Bedeutung.

The author takes a look at how the notion of a proof could have arisen, and at what its importance would have been in Greek society, by examining the conversation Socrates had with Meno, as reported by Plato.
