Gorshenina, T. V.; Gorshenin, K. P.

Educational and research work “Topological analysis of letters in different alphabets”. (Учебно-исследовательская работа “Топологический анализ букв различных алфавитив”.)

Mat. Shk., No. 4, 54-61 (2013).

The article describes the experience of teaching work and research during which the approach to the comparative analysis of alphabets using a classification of letters on the basis of topological invariants of the way of their writing is developed.
