

ZMATH 2014c.00513

Grishchenko, E. V.

On the influence of logical tasks on the development of students' thinking. (О влиянии логических тестов на развитие мышления учащихся.)

Mat. Shk., No. 5, 35-40 (2013).

The author considers the insufficient attention which is paid to logical tasks in school practice and offers to use logic mathematics tests more frequently. The examples of such tests and recommendations for dealing with them are discussed in this article.
