**Chang-jun, Zhou; Yu-hong, Shen; Qi-xiang, Yang**

**An investigation of the mathematical elements of the Dai culture south-west Yunnan province, China.**

RLE, Rev. Latinoam. Etnomat. 6, No. 3, 100-109 (2013).

Summary: Dai ethnic mathematical culture is an important part of the Dai ethnic culture. Mathematical elements are shown in their daily life. Through a research project of the Yunnan Dehong Dai people in the southwest of China, We collected the first-hand information, tried to do a small investigative study, and collected mathematics teaching resources that is useful for primary and secondary schools students in learning mathematics in this minority areas.
