

ZMATH 1986a.04568

Biehler, R. (Bielefeld Univ. (Germany, F.R.))

Exploratory data analysis - a new field of applied mathematics. Exploratorische Analyse von Daten - ein neues Gebiet der angewandten Mathematik.

Teaching and applying mathematical modelling. Mathematische Modellbildung unterrichten und anwenden.

Editor(s): Berry, J.S. (Open Univ., Milton Keynes (UK)); Burghes, D.N. (Exeter Univ. (UK). School of Education); Huntley, I.D. (Sheffield City Polytechnic (UK). Dept. of Mathematics); James, D.J.G. (Coventry (Lanchester) Polytechnic (UK). Dept. of Mathematics); Moscardini, A.O. (Sunderland Polytechnic (UK). Dept. of Mathematics and Statistics) Chichester: Horwood. 1984. p. 117-130 of 508 p. Ser. Title: Mathematics and its applications. [ISBN 0-85312-728-X]

Classification: K75

Keywords: Data; Descriptive Statistics; Exploratorische Datenanalyse; Mathematical Models; Mathematical Model Building; Mathematical Applications; Content Selection; Tertiary Education; Advanced-Level Courses; ; Daten; Beschreibende Statistik; Exploratorische Datenanalyse; Mathematisches Modell; Mathematisieren; Anwendungen der Mathematik; Stoffauswahl; Tertiaerbereich; Leistungskurs
