Gerdes, Paulus

Paths of leopards, antelopes and hunters. Living mathematics in Angolan sand drawings. With a foreword by Gert Schubring. (Pfade von Leoparden, Antilopen und Jägern. Lebendige Mathematik in angolanischen Sandzeichnungen.) 1st color edition.

London: Lulu; Maputo: Forschungszentrum für Mathematik, Kultur und Bildung. 72 p. (2013).

Publisher's description: Full colour edition of a children's book on illustrations accompanying story telling among the Chokwe in Angola (Africa). The geometry of these drawings made in the sand is explored to discover several mathematical ideas.

Classification: A90 A30
