Bay-Williams, Jennifer M.; Reys, Barbara J.; Reys, Robert E.
Effectively Implementing Standards-Based Mathematics Curricula in Middle Schools.
Middle Sch. J. 34, No. 4, 36-41.

Summary: Introduces standards-based middle grades mathematics instructional materials designed to engage and challenge students in mathematical investigation. Details the challenges of change for teachers, administrators, parents, and students. Highlights a study of the Missouri Middle School Mathematics Project, which implemented one of the NSF curricula, and details the constraints and supportive structures encountered. (ERIC)
