Rasmussen, Mary Jo

PSST!! Pass It On . . . Lessons from the Field.

Applies mathematics teaching techniques to the teaching of general problem solving skills for students in all subjects. Offers ways in which every teacher can use these problem-solving techniques in their day-to-day teaching of any subject. Provides a generic framework, rubric, and scoring guide for school-wide use. (Contains five references.) (ERIC)

Classification: D43
Keywords: educational improvement; excellence in education
