A Software Tutorial for Learning the Nemeth Code of Braille Mathematics.

J. Vis. Impair. Blind. 96, No. 12, 855-57 (2002).

This article describes a software tutorial that can be used by people who are blind to learn the Nemeth Code of Braille mathematics notation. The program was designed for use with the Braille Lite, a note taker that has speech and a refreshable Braille display. The tutorial has 18 lessons. (ERIC)
