

ZMATH 2002b.01592

Bressoud, David M.

What's Been Happening to Undergraduate Mathematics.

J. Chem. Educ. 78, No. 5, 578-81 (2001).

Presents an overview of some of the changes that have been occurring in undergraduate mathematics education. Aims to increase awareness among chemists of what is happening within mathematics and foster greater communication among educators in these disciplines. (Contains 13 references.) (ERIC)

Classification: M65
