

ZMATH 2001b.01235

Wakefield, Dara V.

Math as a Second Language.

Educ. Forum 64, No. 3, 272-79 (2000).

Provides a rationale for approaching mathematics as a second language. Gives teaching suggestions: begin in early childhood, stress similarities between math and language, use spoken math before written, use authentic assessment, and focus on real-life math use. (ERIC)

Classification: C52
