Ebrahimi, Hamid

Seeds of Success.

Am. Sch. Board J. 186, No. 9, 50-52 (1999).

Project SEED, begun in 1963, is an integral part of mathematics instruction in several urban districts. To provide at-risk students with tough academic challenges, Project SEED recruits mathematicians and scientists from universities, corporations, and the community to work in elementary and middle-school classrooms. Program tips are provided. (ERIC)

Classification: D43

Keywords: college school cooperation; high risk students
