Opening the cage? Critical agency in the face of uncertainty.

Skovsmose, Ole (ed.) et al., Opening the cage. Critique and politics of mathematics education. Rotterdam: Sense Publishers (ISBN 978-94-6091-806-3/pbk; 978-94-6091-807-0/hbk; 978-94-6091-808-7/ebook). New Directions in Mathematics and Science Education 23, 369-386 (2012).

Summary: Finally, the authors return to the notion of critique and to the impossibility of founding critique on an unassailable logical, epistemological, or political foundation. Emphatically, this position does not imply that action is impossible, but the grounds for that action are value systems and judgments.
