

ZMATH 1998f.03947

Meel, David E.

Calculator-Available Assessments: The Why, What, and How.

Educ. Assess. 4, No. 3, 149-74 (1997).

Four issues associated with calculator-available assessments are discussed: (1) benefits and problems of calculator use; (2) components of various types of calculator-available assessments; (3) construction of calculator-available assessments; and (4) the need for additional examination of items included on calculator-available assessments.
