Cauley, Kathleen M.; Seyfarth, John T.

Curriculum Reform in Middle Level and High School Mathematics.

NASSP Bull. 79, No. 567, 22-30 (1995).

The National Council of Teachers of Mathematics' "Curriculum and Evaluation Standards for School Mathematics" (1989) and "Professional Standards for School Mathematics" (1991) need principals' help to be implemented. Secondary principals should become familiar with standards, provide teachers with long-term professional development, facilitate collegial coaching and networking among math teachers, foster communication between math and other teachers, provide necessary resources, and deemphasize standardized testing.
