

ZMATH 1994e.01896

Kostelecky, Joyce M.

The Will and the Way to Educate.

TECHNOS 1, No. 2, 11-14 (1992).

Provides a profile of Abdulalim Shabazz and his philosophy and practices relating to excellence in mathematics education. Highlights include his career at Clark Atlanta University; graduate mathematics students; teaching students based on need rather than test scores and background requirements; and gender equity in higher education, especially for African-American males.
