

ZMATH 2014d.00665

Marković, Djoko G.

Antique solutions of linear and quadratic equations using contemporary mathematical language. (Antičko rešavanje linearnih i kvadratnih jednačina prikazano savremenim matematičkim jezikom.)

Nast. Mat. 56, No. 3-4, 49-51 (2011).

Examples of solving linear equations from the Ahmes papyrus and Al-Khwarizmi's solving of quadratic equations are presented.
Zoran Kadelburg (Beograd)

Classification: H33

Keywords: linear equations; quadratic equations
