Andrei Andreyevich Markov and mathematical linguistics. II. (Andrej Andrejevič Markov a matematická lingvistika. II.)

Učitel Mat. 19, No. 2, 112-123 (2011).

Summary: In the second part of the article about a significant Russian mathematician Andrei Andreyevich Markov, the author discusses his scientific work, publications and areas of interest. She also describes his contribution to the linguistic discipline. Markov formulated the basic elements of linguistics which was later described as mathematical linguistics. For Part I see [ibid. 19, No. 1, 37–43 (2010; ME 2013c.00815)].

Classification: M80 A30
