

ZMATH 2012c.00803

Kathotia, Vinay

Applying mathematical processes (AMP).

Math. Teach. (Derby), No. 223, 10-11 (2011).

Summary: This article provides insights into the "Applying Mathematical Processes" resources, developed by the Nuffield Foundation. It features Nuffield AMP activities—and related ones from Bowland Maths—that were designed to support the teaching and assessment of key processes in mathematics—representing a situation mathematically, analysing, interpreting and evaluating, and communicating and reflecting. (ERIC)

Classification: U53 U63

Keywords: thinking skills; investigative approach; mathematics skills; teaching methods; mathematical concepts; grade 9; manipulative materials; interactive resources
