

ZMATH 2012b.00030

Abdeljaouad, Mahdi

The first Egyptian modern mathematics textbook.

Int. J. Hist. Math. Educ. 6, No. 2, 1-22 (2011).

Summary: Ahmad al-Tabbākh's textbook is the first evidence of European mathematics taught in Egypt at the beginning of the 19th century. We provide reliable evidence that this textbook is the indirect translation into Arabic of a famous 18th-century French textbook written by Bézout.

Classification: A30 U20

Keywords: history of mathematics education (19th century); translation of European mathematics textbooks; Bézout's *Arithmetic*
