

ZMATH 2013d.00055

Kolyagin, Yu. M.

From a serf to a professor. (Professor iz krepostnykh.)

Mat. Shk., No. 7, 65-67 (2010).

At the beginning of the year 2010 the 150th birthday of the talented Russian mathematician V. Anisimov was celebrated. He was very respected in the mathematical community in the turn from the nineteenth to the twentieth century, both in Russia and in Europe but information about his life and scientific work is very scattered. The author of the article managed to find new documents clarifying some details of the scientist's biography.

Elena Glukhova (Moskva)

Classification: A30 I70
