

ZMATH 2013a.00721

Persson, Ulf

Koch's snowflake.

Normat 58, No. 3, 141-143, 144 (2010).

Summary: This is a short presentation of the snowflake curve first presented by *H. von Koch* [Ark. Mat. Astron. Fys. 1, 681–702 (1904; JFM 35.0387.02)]. In particular, an explicit parametrization is given, and some questions are asked.

Classification: I95

Keywords: snowflake curve; parametrization
