

ZMATH 2016f.01022

Host, Erin; Baynham, Emily; McMaster, Heather

Using digital technology to see angles from different angles. II: Openings and turns.

Aust. Prim. Math. Classr. 20, No. 2, 3-9 (2015).

Summary: Ever wondered how to use technology to teach angles? This article follows on from an earlier article [the authors, *ibid.* 19, No. 2, 18–22 (2014; ME 2016f.01021)], providing a range of ideas for integrating technology and concrete materials with the teaching of angle concepts. The authors also provide a comprehensive list of free online games and learning objects that can be used to teach angles in an engaging way. (ERIC)

Classification: G40 U70

Keywords: geometry; geometric concepts; use of technology; angles
