

ZMATH 2016f.01242

Lovett, Jennifer N.; Lee, Hollylynne S.

Making sense of data: context matters.

Math. Teach. Middle Sch. 21, No. 6, 338-347 (2016).

Summary: This article discusses how data collected from a personal information survey provides students such an opportunity to reason about data by considering the units of measurement and reasonable values within a context. (ERIC)

Classification: K43

Keywords: context effect; statistics; data analysis
