

ZMATH 2009b.00541

Ingram, Jenni

Life after death by "PowerPoint".

Math. Teach. Inc. Micromath 2008, No. 208, 20-21 (2008).

Summary: In this article, the author explores how to use "PowerPoint" to support the mathematics itself, not just to "present" but actually to "enhance" learning. For the purposes of this article, she has explored three tools: colour, animation and hyperlinks. (Contains 1 note.) (ERIC)

Classification: U50 R20 D40

Keywords: computer assisted instruction; multimedia instruction; animation; color; hypermedia; geometry; spreadsheets; Web sites; teaching methods
