Penne, Rudi

Projective geometry and mechanics in the plane. (Projectieve meetkunde en mechanica in het vlak.)

Nieuwe Wiskrant 27, No. 3, 22-33 (2008).

The author describes mechanical relations by methods of analytic geometry. It is focused on the motion of arms of robots as well as on the construction of framework. *Martin Winter (Vechta)*

Classification: G80 M20

Keywords: geometry; mechanics
