

ZMATH 2016f.00999

Caglayan, Gunhan

Exploring the lunes of Hippocrates in a dynamic geometry environment.

BSHM Bull. 31, No. 2, 144-153 (2016).

This is a report on computer lab classroom experiences in an undergraduate ‘History of mathematics’ class with Geometer’s Sketchpad or GeoGebra in figuring out why Hippocrates’s lunes are squarable.
