Turbina, I.V.

State standards of upper secondary vocational education. (Gosudarctvennye obrazovatel'nye standarty srednego professional'nogo obrazovaniya.)

Mat. Shk., No. 3, 48-50 (2007).

Problems of educational standards in secondary vocational training in mathematics are considered. Some examples of standards show that there is an obvious gap between the educational standards of secondary vocational training and educational reality. The author presents a way to minimize this gap.
