**CS unplugged: experiences and extensions.**

Brodnik, Andrej (ed.) et al., Informatics in schools. curricula, competences, and competitions. 8th international conference on informatics in schools: situation, evolution, and perspectives, ISSEP 2015, Ljubljana, Slovenia, September 28 – October 1, 2015. Proceedings. Cham: Springer (ISBN 978-3-319-25395-4/pbk; 978-3-319-25396-1/ebook). Lecture Notes in Computer Science 9378, 106-117 (2015).

Summary: CS Unplugged is a set of activities for teaching CS concepts without using computers. We translated it to Slovenian and used it in different contexts, from the classroom and afterschool activity to summer school to professional development courses. In the paper, we summarize our adaptations, extensions and experiences.
