

ZMATH 2006d.02460

Cramer, Kenneth M.; Jackson, Dennis L.

Fans, football and federal elections: a real-world example of statistics.

Teach. Stat. 28, No. 2, 56-57 (2006).

This article evaluates and explores the correlation (+0.892) between the United States federal election winner and the most recent Washington Redskin home-game winner, a relation perfectly linked for 17 to 18 elections since franchise inception in 1936.

Classification: K80
