What do MM experiments tell us?

J. Math. Educ. (Tianjin) 14, No. 4, 74-77 (2005).

Summary: MM educational way was not only lived solely in reform and study of mathematics education in the eighties of the twentieth century, but also a project of teaching reform that still continues to develop. What did MM experiment tell us? Anyway, it was a problem we must face. We should ponder it calmly, bravely and deeply.
