

ZMATH 2015e.00811

Hindls, Richard; Hronová, Stanislava

Are we able to pass the mission of statistics to students?

Teach. Stat. 37, No. 2, 61-65 (2015).

Summary: The article illustrates our long term experience in teaching statistics for non-statisticians, especially for students of economics and humanities. The article is focused on some problems of the basic course that can weaken the interest in statistics or lead to false use of statistic methods.

Classification: K45 K75 K85 K65 M45 U75

Keywords: technical aspects of teaching statistics; use of computers; teaching statistics for non-statisticians
