

**ZMATH 2004f.04826**

**Th lessons of Professor Apotema. Duality in Boolean algebra. (Le lezioni del Professor Apotema. La Dualità nell'algebra di Boole.)**

Mat. Didatt., No. 3, 79-89 (2004).

The article presents the Duality in Boole's Algebra in the form of a dialogue. It was published in two parts in *Il Leonardo*, the monthly school magazine circulated free of charge to the students and teachers of 'ITIS Leonardo da Vinci', a technical, industrial State Secondary School in Carpi (Modena, Italy). This school magazine, now in its third year of publication, sets as its goal the improvement of the image of maths and serves as support for a yearly competition of logic/mathematical games held within the school.
