

ZMATH 2004e.04000

McDonough, Andrea

PPELEM - Pupil Perceptions of Effective Learning Environments in Mathematics. A simple way to learn about your children and inform your teaching of mathematics.

Aust. Prim. Math. Classr. 7, No. 3, 14-19 (2002).

The author describes a teaching tool that provides an opportunity for learning about the learners in a classroom. This article illustrates the vital links between teaching, learning and assessing that make up a pedagogical relationship.

Classification: D42

Keywords: assessment
