

ZMATH 2003b.01170

Knuth, Eric J.

Proof as a tool for learning mathematics.

Math. Teach. (Reston) 95, No. 7, 486-490 (2002).

The purpose of this article is to describe an approach to enhance the role of proof in the classroom by finding effective ways of using it as a vehicle to promote mathematical understanding. The author presents and discusses examples of proofs that explain and proofs that merely prove.

Classification: D33
