

ZMATH 2016c.00342

Clarysse, Annie; De Naeghel, Koen

Research competencies with Wiskunnend Wiske. (Onderzoekscompetenties met Wiskunnend Wiske.)

Uitwiskeling 30, No. 3, 4-15 (2014).

Summary: The authors explain their way of teaching research competencies in a systematic way in math classes (16–18 year old pupils). As an example, they use a problem about a treadmill, posed on a competition between Flemish schools.

Classification: D34 D44 M14 D54

Keywords: research competencies; modeling; problem solving
