Modelling and mathematics education: ICTMA 9: applications in science and technology. 9th international conference on the teaching of mathematical modelling and applications, Lissabon, Portugal, August 1999.

Horwood Publishing, Chichester (ISBN 1-898563-66-7). x, 422 p. (2001).

The articles included in this book were presented in the Ninth International Conference on the Teaching of Mathematical Modelling and Applications (ICTMA-9) held in Lisbon in August 1999. They reflect the international interest that modelling and applications receive nowadays and show how both in secondary and in tertiary education teachers are developing interesting ideas and project with students. The articles of this volume are reviewed individually. For the preceding conference see [ME 1999c.01329].
