**Reflections on a graduate programme in mathematics education at the State University Paulista. (Considerações sobre o Programa de Pós-Graduação em educação Matemática da Universidade Estadual Paulista (UNESP, Rio Claro).)**

Bolema 14, No. 15, 104-137 (2001).

This article describes an internal evaluation carried out at the end of the first five years of existence of the Graduate Program in Mathematics Education at UNESP, Rio Claro. It was presented in the First Iberoamerican Congress of Mathematics Education in Seville, Spain, in 1990, but was never published. The initiative of Bolema to publish it is based on its importance for future evaluations of the graduate program as well as its historic value. The only thing that has been omitted from the original text is an annex containing the list of studies presented by students and former students. (orig.)
