

ZMATH 2016a.00377

Leong, Yew Hoong; Toh, Tin Lam; Tay, Eng Guan; Toh, Pee Choon; Quek, Khiok Seng; Dindyal, Jaguthsing; Ho, Foo Him

Another step towards mathematical problem solving for everyone.

Leong, Yew Hoong (ed.) et al., Making mathematics more practical. Implementation in the schools. Hackensack, NJ: World Scientific (ISBN 978-981-4569-07-1/hbk). 107-114 (2014).

Summary: Due to the purpose of this chapter as one that provides a kind of wrap-up of this book, it was the last to be written. In fact, there was a significant time lapse of about 9 months between the submission dates of all the other chapter manuscripts and the writing of this chapter. In the intervening period, a number of the participating schools had begun the second implementation of the MProSE module in their respective schools, bringing on board the revisions that they proposed in the earlier chapters.

Classification: D50 D30
