Research Experience as a Component of Science and Mathematics Teacher Preparation.

J. Sci. Teacher Educ. 10, No. 2, 147-158 (1999).

Describes the Future Teachers' Research Program (FTRP), the several strategies that were employed for exploring its impact, and the results of those investigations. The program has been operating since 1990, offering the opportunity to explore how research experiences contribute to teacher preparation and whether that research experience enhances subsequent teaching.
