Les liens entre la pratique de la classe et la recherche en didactique des mathématiques (Actes). , (ISBN 88-7967-036-0). 91-94 (1999).

Aiming to give a better preparation to the pupils of a federal technical school of Chemistry in Rio de Janeiro, Brazil, we have developed a research to involve the researcher, teaching himself Mathematics at that school, the Physic-Chemistry and Chemistry teachers and the pupils in an interactive action. With this work we wish to investigate the necessary mathematics subjects for the learning of Chemistry and to fortify their understanding by the pupils. (Authors' summary)
