**Graphics calculators in Victorian secondary schools: teacher perceptions of use.**

Truran, John M. et al., Making the difference. , (ISBN 0-9594844-9-2). 502-506 (1999).

Since Victoria permitted the use of graphics calculators in final external examinations, their use has become quite widespread. A survey of secondary schools, undertaken to gauge the response of teachers to these tools, provides information on how teachers view graphics calculator use in secondary mathematics courses.
