

ZMATH 2012c.00444

Mattson, Merry

Multimedia math: fractions are just a fraction of what is available.

Techn. Connect. 5, No. 1, 24-25, 30 (1998).

Summary: Describes recent offerings in math software for fractions lessons that provide instruction and interactivity not previously available in electronic formats. Compares three products, including selection criteria for multimedia supplemental materials. A table provides specific information on the products, including grade level, format, system requirement, price, and features. (ERIC)

Classification: F43
