Numbers magic? A children's tale. (La magia dei numeri? Una favola per bambini.)

Lett. mat. Pristem, No. 26, 55-59 (1997).

The author reviews the Italian edition of the best-seller book by Hans Magnus Enzensberger (in Italian: Il mago dei numeri, Einaudi, Torino) and takes it as a starting point for a discussion on the popularisation of mathematics. (The German edition has been reviewed in ZDM 29(1997)6 under A90 3668)
