Towards a dialectic conception of mathematics. (Per una concezione dialettica della matematica.)

Lett. mat. Pristem, No. 25, 12-14 (1997).

The authors review the Conference which took place in Perugia, Italy in honour of Bill Lawvere on May 1st–3rd 1997. They also try to convey the unusual warmth and friendliness of the Conference and some of the famous category theorist's ideas on mathematics.
