Congreso Internacional de Educación Matemática.

, (ISBN 84-923760-2-3). 539 p. (1996).

This book constitutes the Proceedings of the 8th International Congress on Mathematical Education (ICME-8) which was held at Seville, Spain, from July 14 to 21, 1996. This book of Proceedings of the 8th International Congress on Mathematical Education includes the texts of the four plenary lectures, reports of the various groups presentations and debates, abstracts of regular lectures and tries to report on almost all activities on the program. Like most proceedings this volume intends to give an overview of the full congress and to facilitate, even to those who participated actively in some sections of the program, useful informations and conclusions that arose during the congress in all parallel activities taking place. Full text of a large number of regular lectures will appear in the companion volume on Selected Lectures from the 8th International Congress on Mathematical Education.
