

ZMATH 1997d.02302

Mabry, R.; Wagon, S.; Schattschneider, D.

Automating Escher's combinatorial patterns.

Math. Educ. Res. 5, No. 4, 38-52 (1996).

The use of replacement rules to implement transformations of the plane and equation-solving to determine colors allows the automation of some early tiling techniques of M. C. Escher. (orig.)

Classification: G40
