

ZMATH 1995d.00616

Gardner, J.

Internet anywhere: All you need to test drive Internet mail and Usenet news for 30 days.

Prentice Hall, Englewood Cliffs, NJ (ISBN 0-13-185612-X). 463 p. (1995).

This book provides you with software that lets you connect with the Internet for electronic mail and Usenet news. The software is a version of the MKS Internet Anywhere package, and much of the book is devoted to helping you learn how to use the package.

Classification: R50
